

"Fly Geysers Pools" by Harmony Ann Warren. An entry from the 2014 Annual Photo Contest.

Mention photos will receive certificates.

Photographs on any subject related to geothermal energy can be submitted such as geothermal energy production, EGS, Direct Use and geothermal heat pumps. These can include photos of well testing, drilling, operation of geothermal equipment, newly

developed equipment, or plant operation, construction of a geothermal plant or plant site, and geological areas or surface manifestations (holding potential for geothermal exploration or development).

More information on the GRC Photo Contest, including a *Submission Form*, can be found on the GRC website: www.geothermal.org. **The deadline for submissions is August 14, 2015.**

GRC Workshop in Yellowstone National Park

June 22-26: Sunday through Friday

There are some spaces left on this popular GRC Workshop/Fieldtrip. **Register by June 12 to ensure your place.**

The mid-year GRC Workshop to **Yellowstone National Park** will include a tour of the major geologic features of the Park, the site of the **greatest concentration of geothermal features in the world**, and discussions of its volcanic history, geochemistry, and hydrology.

The trip will be led by **Duncan Foley**, **Gene Suemnicht**, and **Joe Moore**. Duncan has led geologic and photographic tours of the park since the 1970's and is familiar with its features, moods and history. Gene and Joe each have more than 30 years experience in geothermal systems worldwide.

Highlights include:

- The 13 MW net capacity U.S. Geothermal **Raft River geothermal power plant** and the **Raft River Enhanced Geothermal System (EGS)** site where stimulation activities are being conducted.
- The geological and geothermal features of the **Yellowstone super volcanic system**.
- Superb **pool and core structures** and many different types of thermal features.
- **Grand Teton National Park**

Cost starts at **\$1,500 per person for GRC Members, \$1,700 for non-members**. See the GRC website for pricing details.

The price **will include** transportation from Salt Lake City and 4 nights double-occupancy accommodation in West Yellowstone. Also included are 4 lunches, one dinner, one reception and trip materials.

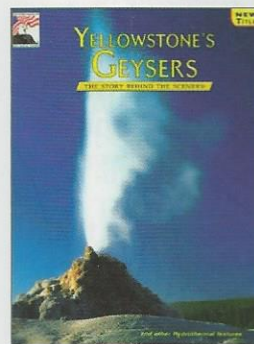

Not included are the cost of flights to and from, and accommodation in Salt Lake City on June 21 and June 26, and the cost of breakfasts each day and 3 dinners.

Register by June 12 - only 50 spaces available.

Register online at www.geothermal.org/workshops.html or download a PDF *Registration Form*, fill-in, print out and mail or fax back to GRC.

Cancellations before May 22 will incur a \$100 fee. No cancellations will be allowed after May 22.

Go to www.geothermal.org/workshops.html for the latest information.

All registrants will receive a **FREE** copy of "Yellowstone's Geysers - The Story Behind the Scenery - and other Hydrothermal features" by trip leader Duncan Foley. (48 pages, 68 color photos & 3 maps/diagrams)

GRC Scholarships 2015

The deadline for applications for this year's GRC Scholarship Awards is May 4.

Six awards of \$15,000 in total are available for undergraduate and graduate students who are also GRC members. See page 47 for more information. ■
